Playskool's "Tyke Bike" for only $4.97 ???

YES! RIGHT HERE IN THE WISH BOOK
..where you find all the right answers for holiday shopping

What's so special about a Tyke Bike? Just about everything. Like the easy steering, bright colors, smooth rounded edges and rugged wood frame.

It had to be tough, because toddlers don't just ride a riding toy—they touch and turn and bounce and pound it. But this little bike can take it all.

It looks pretty special, too, with its bright, happy colors and bold "jungle-spotted" seat.

The 17¾x14¼x18-inch Tyke Bike has a large contoured plastic seat only 8 inches off the ground . . just right for 1 to 3-year-olds. They'll steer the chrome-plated handlebars and glide on blow-molded plastic wheels. There are even "grown-up type" plastic grips with streamers. Toddlers just board the bike, scoot along and discover their world.

Teddy Bears are for love

. . and for listening to childhood confidences or sympathizing quietly with the disappointments.

The name "Teddy" came from a 1902 cartoon of Teddy Roosevelt refusing to shoot a small bear cub. It was nicknamed "Teddy's Bear."

Since then, thousands of owners have grown up with a Teddy. They believe, as we believe, that a Teddy Bear belongs in every childhood.

GOLDEN WONDER OF GROWING T.M.

playthings

for early childhood development

A unique series of toys developed by studying what, when and how babies learn

In 1968 Dr. Esther P. Edwards, former Associate Professor at the Eliot-Pearson Department of Child Study at Tufts University, and her colleagues began reviewing all available research and commentary in the field of early childhood development. Their goal? To develop a series of original play materials which would encourage children to develop at their own rate, to their full potential. The result? Sears exclusive Wonder of Growing Playthings.

Each toy has been designed to give challenge and satisfaction to the child . . to give the child a sense of achievement as well as the motivation to explore. Each toy has been designed to provide multiple activities for the child. As the child develops, he learns to use the toy in more complex ways. Each series of toys has been organized in a flexible sequence which fosters the child's movements through successive stages of growth.

Facts about Refractor Telescopes

Modern refractors are much improved versions of the model Galileo built in 1610. A large "objective" lens and a smaller "eyepiece" lens mounted in a tube gather, magnify and focus light directly into your eye. How much light from faint stars can be gathered depends on the size of the "objective". Magnification can be varied by changing the "eyepiece".

All our Refractor Models include an erecting prism that makes the normally inverted image appear upright. The refractor's design makes it easy to use for terrestrial viewing.

300x, 240x and 200x Models have a wide-angle finder-scope for aiming the main telescope at small, celestial bodies quickly and easily.

300x, 240x and 150x Models feature the new sun projection screen which displays a sharp solar image for individual or group viewing without endangering the observers' eyes.

300X Refractor Telescope with professional-type equatorial mount . .

a flexible, extra-stable mount usually found only on models costing $100 and more

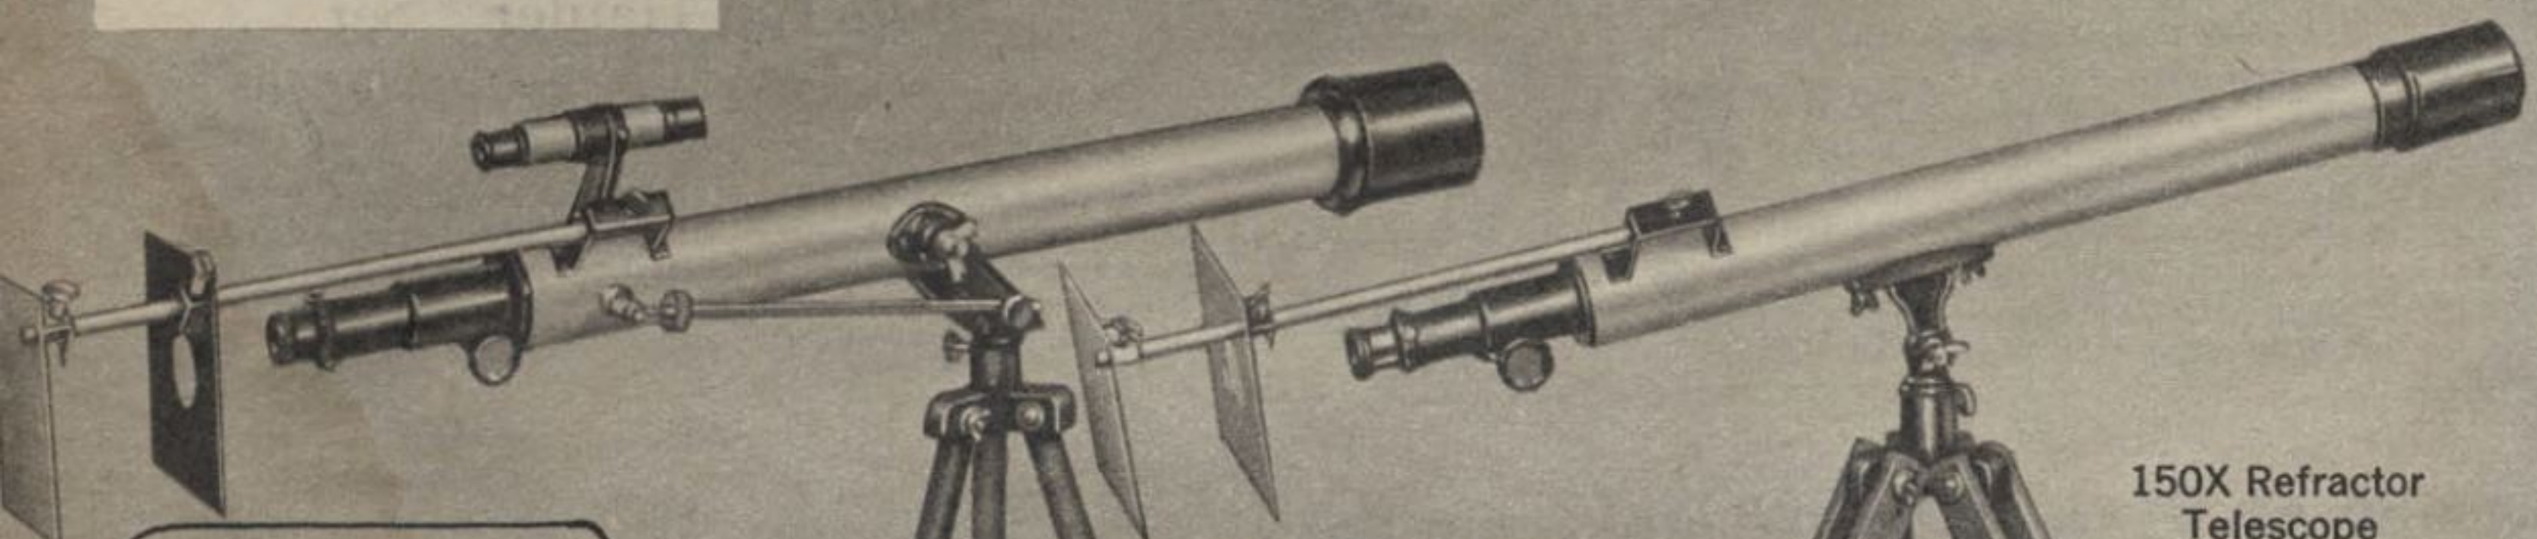

$49.99

Zero-in on the moon, stars, even an airplane with the finderscope . . then use the rack-and-pinion focusing to get a crystal-clear image. Deluxe equatorial mount and micro-motion adjustment make it easy to track objects moving vertically, horizontally . . even diagonally. Magnification is 41, 82, 150 or 300-power for inverted astronomical viewing, and 62 or 225-power with an upright image for terrestrial viewing. Main lens is 60mm achromatic-coated, with a 900mm focal length. Sturdy 52-inch metal tripod has an accessory tray that securely holds extra lenses and eyepieces. Sun projection screen attaches for safe solar viewing. 39 inches long by 57 inches high. Metal, glass, plastic. Owner's manual included. From Japan.

79 C 24104C—Shipping weight 14 pounds.....$49.99

Both 300X and 240X scopes have 6 different lenses: 2X Barlow, 1.5X erector, moon filter, 5X finder scope, 6mm and 22mm eyepieces.

240X Refractor with sensitive micro-adjustment

$39.99

Look at all the professional-type features: 5-power sighting scope lines up the object; sturdy 52-inch high adjustable metal tripod keeps scope steady; and micro-motion knob allows the fine adjustments necessary to keep the object centered as it moves. There's even an accessory shelf on the tripod to hold lenses not in use. Wide range of magnification: 32, 63, 120 or 240-power for inverted viewing; 48 or 175-power for upright viewing. Main lens is achromatic-coated 60mm objective, 700mm focal point. Rack-and-pinion focus adjustment. Sun projection screen provides for safe observation of the sun. Metal scope, plastic trim. 30 inches long. Japan. Buy it the easy way . . order by phone.

Facts about Reflector Telescopes

Like Isaac Newton's first reflector designed in 1668, these models use a specially-ground mirror to gather light and reflect it into an "eyepiece". The eyepiece's location near the top of the tube makes the reflector easier to use for viewing the sky. How well the mirror can concentrate the faint light of distant stars is determined by the mirror's diameter.

Shoulder a piece of history . . the American Cowboy's first friend and right arm on the trail . . a reminder of the West's great cattle drives

6

6 In looks, feel and action this BB Gun replica captures the rich tradition of a lusty era when bold men drove great herds of longhorn cattle across vast expanses of the raw, wild western plains to Kansas railheads in the north. Fearless men who fed a nation; and the saddle gun was a valuable tool of their trade.

Two-way lever action takes less effort—cocks halfway on forward and halfway on backstroke; before the gun can be fired, the hammer must be cocked—just like the real thing. Authentic side-port loading; underbarrel magazine holds 40 BBs; spring-forced feed—simply push feed handle toward muzzle end and 10 BBs are loaded into chamber. Order BBs on page 194.

Here, and on the next three pages, eight of the most exciting items we've ever put into any Wish Book

From one of America's finest collections of antique toys, displayed at the Museum of History and Technology of the Smithsonian Institution, Washington, D.C. . . here are cast-iron reproductions, hand-made from molds cast from the original toys, then carefully hand painted and hand decorated. We insisted on a foundry where time-honored methods are still used, and where most tools are the same as those used at the turn of the century. We are so pleased with the results that each piece comes to you with a certificate of authentication.

We ask you to read about each item so that you can better understand why it is indeed a collector's item to be prized. Total sales of each reproduction will be limited to just 250, then the mold will be broken. Each piece carries a benchmark identifying the collection and is individually numbered. You are assured of receiving an authentic copy and assured of possessing a collector's toy from a truly limited edition.

Hook and Ladder Wagon with 4 Horse Team

35 inches long, 9 inches wide, 10 inches high (about 1900)

Every detail is authentic . . the wheels even turn and are bowed because these wagons took corners at such high speeds. The bell sounds like a true fire bell because it is actually made of real bell metal, and it rings with every turn of the wheel. Meanwhile, the sprightly horses bob up and down in excitement of racing to the fire . . you can almost smell the smoke!

Shipped prepaid by motor carrier or express from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

Limited Edition Collectors' Items

AUTHENTIC REPRODUCTIONS CAST FROM

To exhibit your replica handsomely and to help keep it dust free, an attractive display case will be sent with each "toy." This case may be used self-standing or wall-mounted (hardware not included). A solid brass plate on the case describes the piece and dates the original vehicle.

Please remember . . the sale of these replicas is limited; just 250 of each item will be made. To be sure of receiving the collector's piece of your choice, place your order early. Orders for delivery before Christmas must be placed before December 6.

The Smithsonian's Antique Toy Collection will be touring the country so that many who cannot get to Washington, D.C. may view the display. The entire Collection actually consists of 2,800 different pieces, many of which will be displayed in major cities within the next few months.

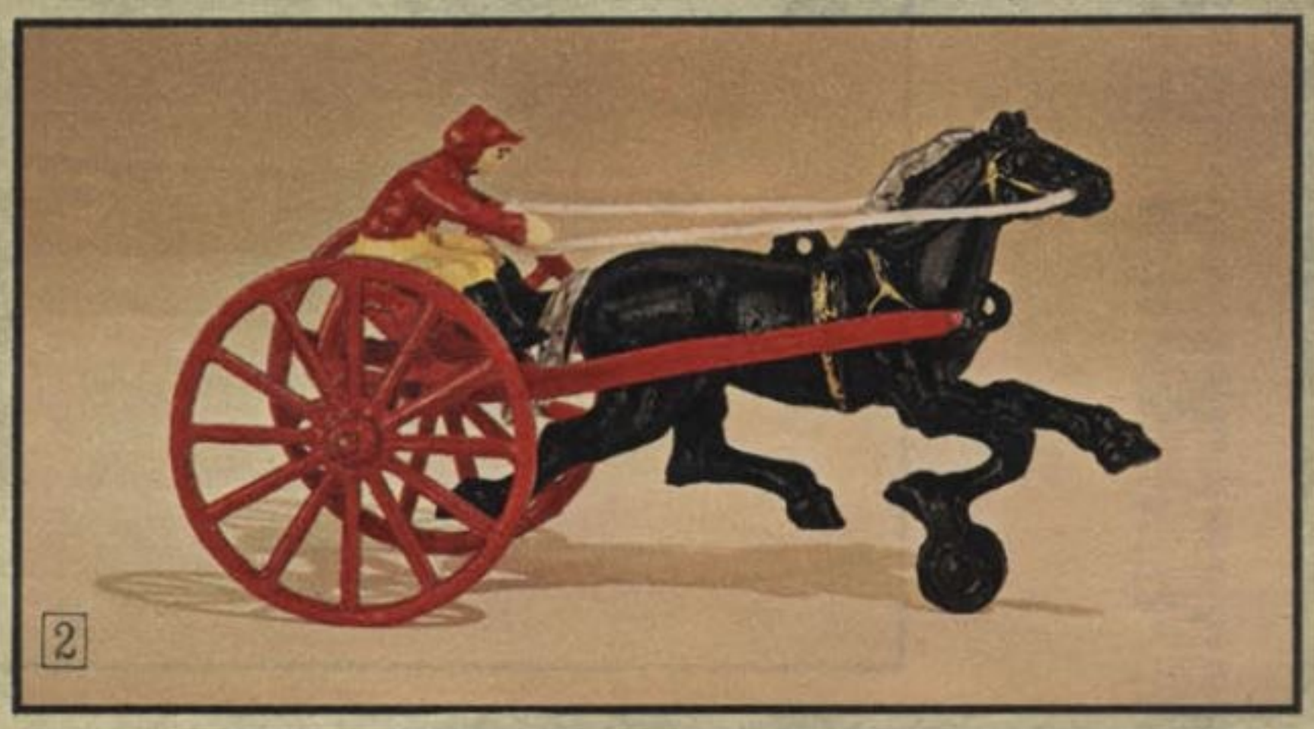

Horse-drawn Carriage with Uncle Sam as passenger

18 inches long, 4½ inches wide, 8½ inches high (about 1900)

1 Most unusual! One of a rare group called "Nodding Head Toys" made around the turn of the century in Kenton, Ohio. Fanciful caricatures were usually used as passengers in a little carriage. As the wheels turned and the horse seemed to trot along, the whimsical, oversized head nodded to the delight of young and old alike. Our cast-iron replica is identical, even to the wobbly head. Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

F21 C 87982—(Shipping weight 6 pounds).....$150.00

Race Horse with Sulky

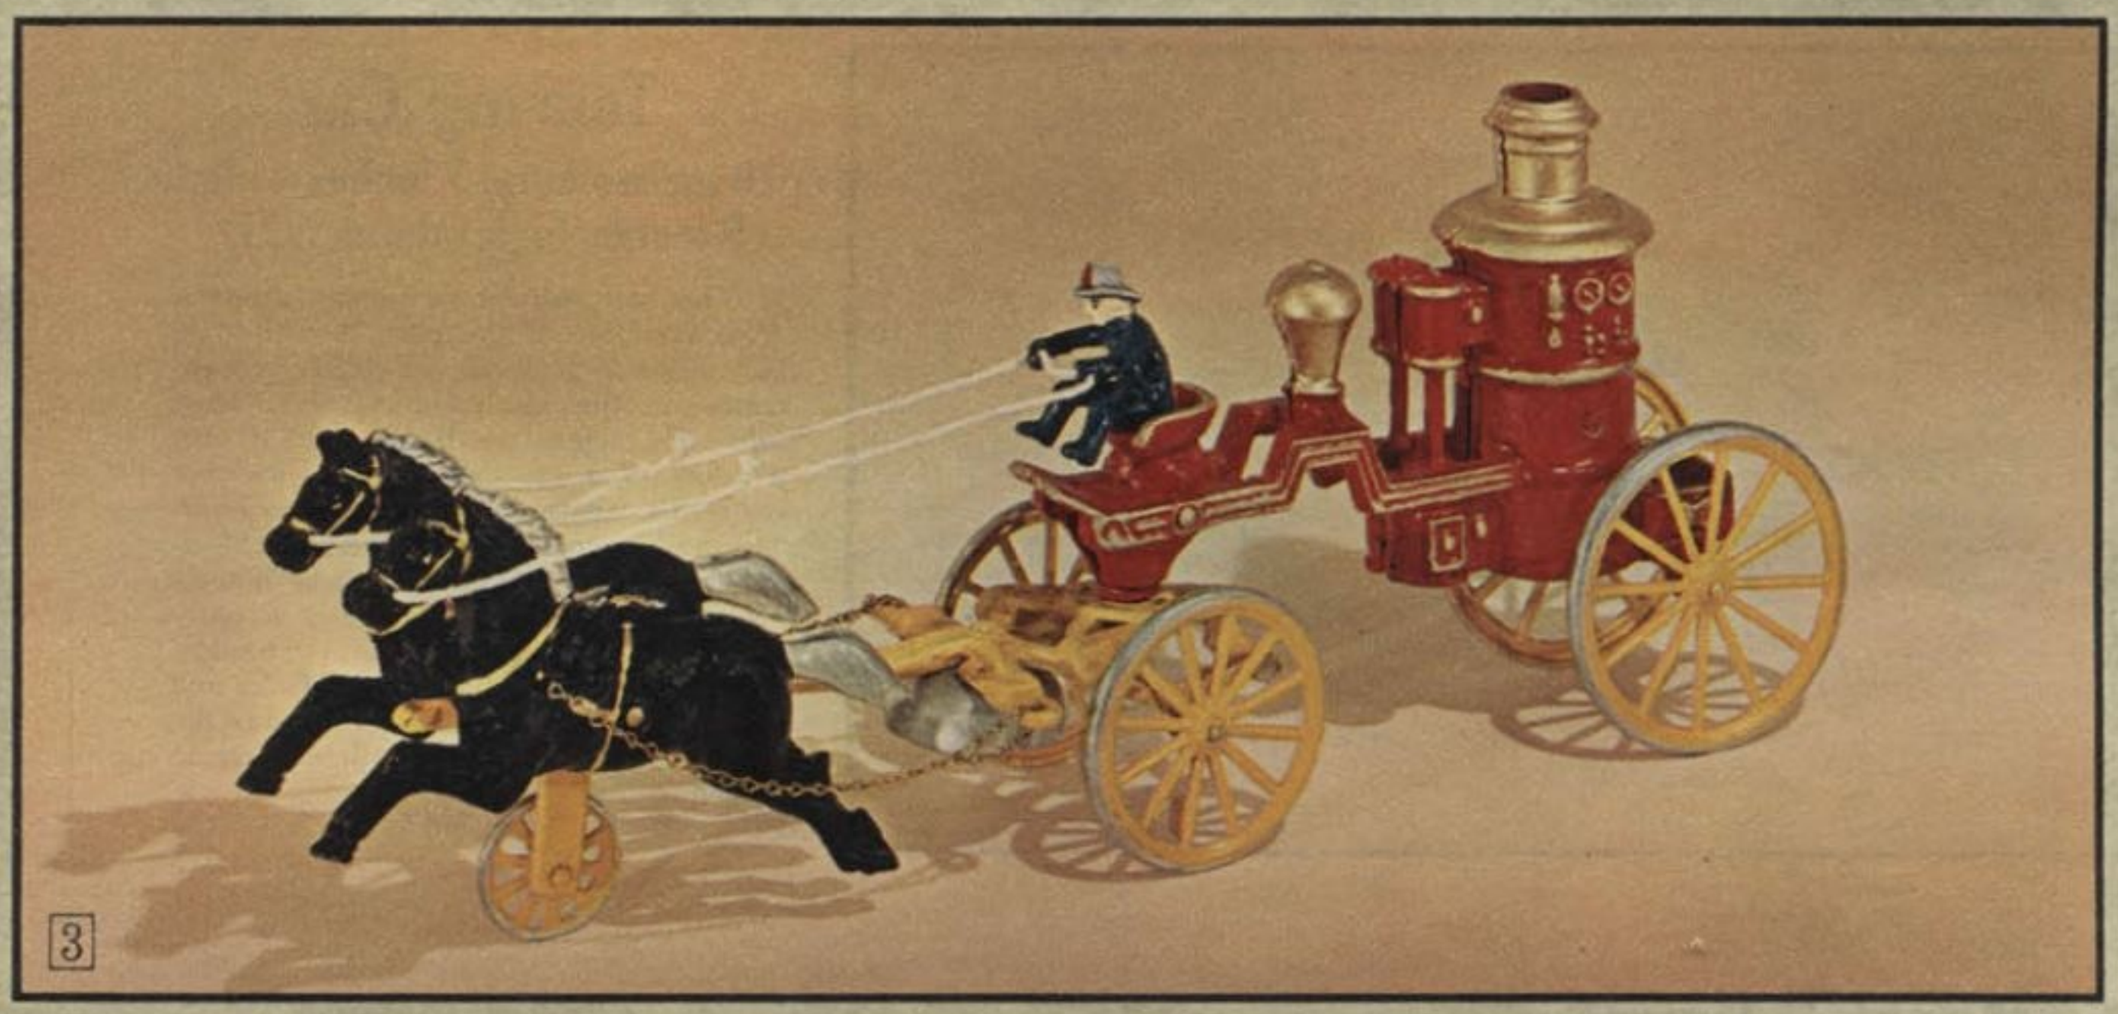

9 inches long, 4 inches wide, 4½ inches high (about 1930)

2 Enthusiasts of horse racing would treasure such a cast-iron model now, just as in the 1930's when this toy was first cast. Wheels actually turn while the sleek, high-spirited horse appears to be straining the bit toward a dramatic photo finish! Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

ONE OF AMERICA'S FINEST COLLECTIONS OF ANTIQUE TOYS

Horse-drawn Pumper Wagon

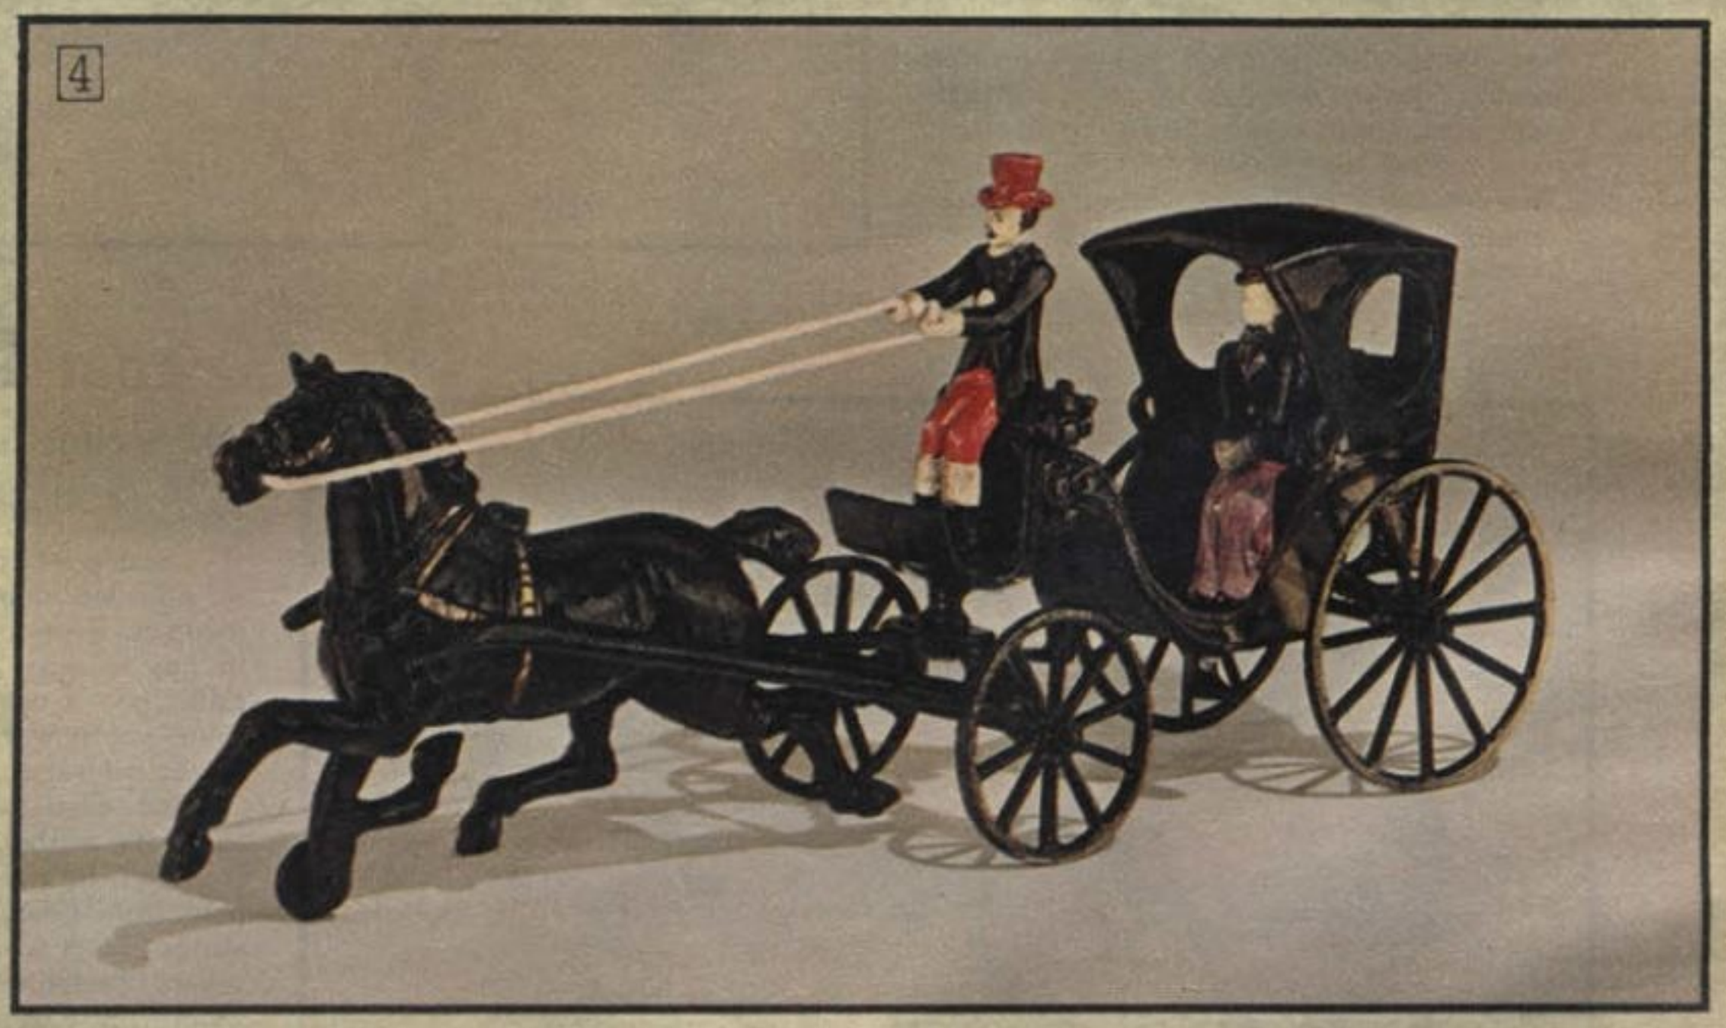

19 inches long, 4 inches wide, 8 inches high (about 1870)

3 The type of pumper wagon used by the Chicago Fire Department at the time of the Great Chicago Fire of 1871. Even the bell on this hand painted, cast iron replica sounds like a true fire bell because it is made of real bell metal and rings a warning with every turn of the wheel. Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

F21 C 87988—(Shipping weight 7 pounds).....$175.00

Horse-drawn Carriage

17 inches long, 4½ inches wide, 7 inches high (about 1900)

4 As the paving of streets became more prevalent, carriage designs took on a light, airy look. Emphasis on utility took second place to ornamental axles, delicate, graceful wheels, and even side and back windows for the passenger to enjoy the scenery. Obviously, only the "rich" could afford such luxuries. This cast-iron replica from the Victorian Era, complete with top-hatted driver, carries a well-dressed lady to some important function. (Wheels actually turn.) Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

AUTHENTIC REPRODUCTIONS CAST FROM ONE OF AMERICA'S FINEST COLLECTIONS OF ANTIQUE TOYS

Touring Car

10 inches long, 3 inches wide, 5 inches high (about 1921)

1 This streamlined two-seater was the convertible of the past. A well-to-do lady rides in style as her driver concentrates on the mechanics of this "new-fangled" machine. He had to start it with a crank. Too expensive for the average man, this car would go 40 miles per hour. The most frequent break-down was a blow-out from the rough, gravel roads. Wheels on our authentic cast-iron replica actually turn. Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

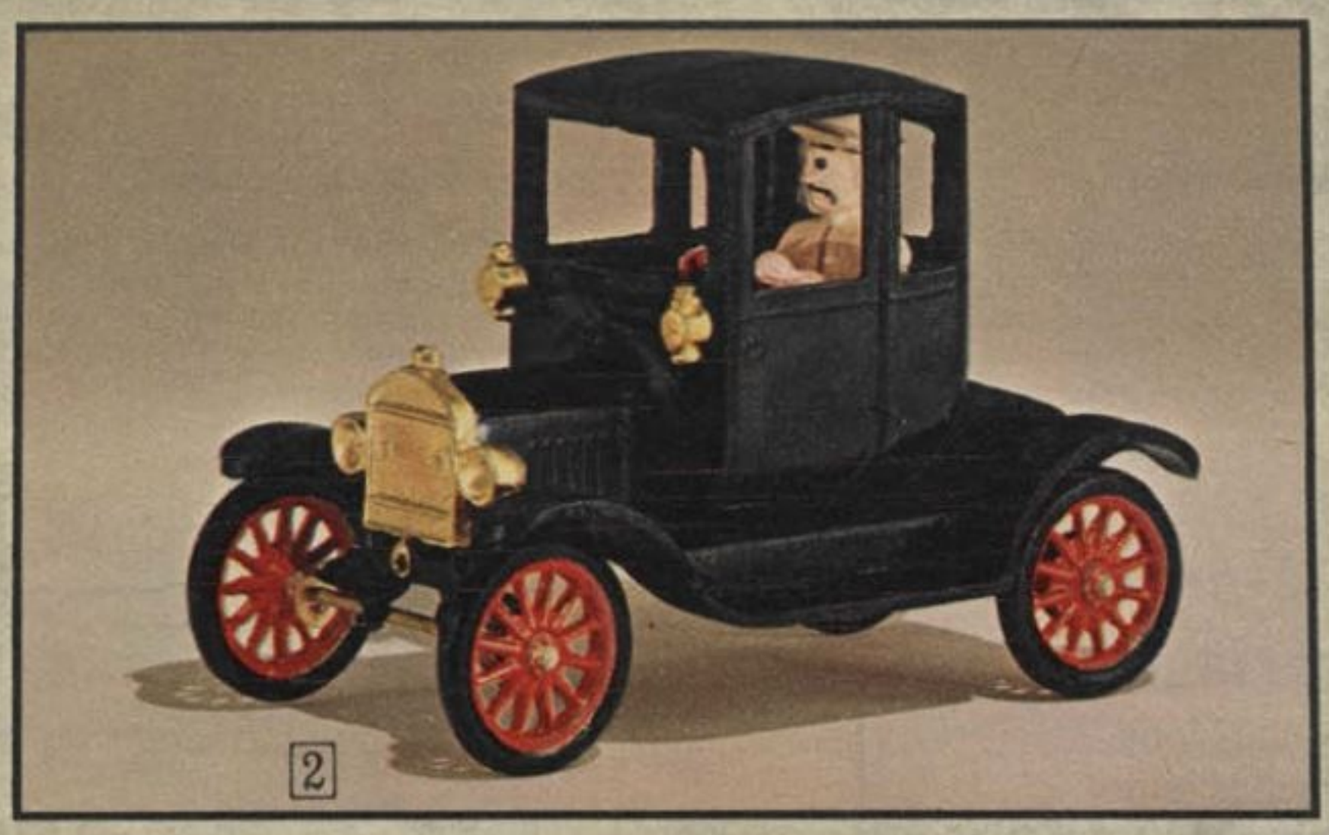

F21 C 87984—(Shipping wt. 5 lbs.)....$150.00

Model T Coupe

10 inches long, 5 inches wide, 8 inches high (1917)

2 After Henry Ford began selling assembly line cars, this model was the first that most men could afford. Certainly not a family car, only two people could sit cosily on the single seat. Top speed was about 35 m.p.h. . . and it certainly beat the horse and carriage for comfort. This cast-iron toy was a favorite of the children of the 1920's, probably for the same reasons children like model cars today . . they dream of owning one just like it. As on all our other replicas, the cast-iron wheels turn, and every detail has been carefully hand painted to look exactly like the original toy. Shipped postpaid from Grand Rapids, Mich., to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

F21 C 87986—(Wt. 5 lbs.).....$150.00

Four Door Sedan

13 inches long, 5 inches wide, 5 inches high (1926)

3 Luxury for the whole family! Two seats afforded plenty of room for packages or toddlers. Even long trips were feasible now in any weather . . this car went up to 40 miles per hour. Families from one Coast could see how the other Coast lived—and might even decide to stay there. Our hand painted, cast-iron replica has wheels that turn. It's authentic in design, even to the tread on the running boards. Shipped postpaid from Grand Rapids, Michigan, to all states except Alaska and Hawaii. No C.O.D. orders. To assure delivery before Christmas, orders must be placed before December 6.

Start a tradition with Heritage Hall™

Every piece of Dinnerware depicts a typical daily scene from our country's past

In the early 1800's, American artists painted scenes on dishes to depict their surroundings. They wanted to show relatives on the Continent and in other parts of the U.S. how they lived. Our Heritage Hall™ pattern, which took 3 years to develop, recaptures the charm of those early day dishes. Homes, modes of dress and scenes are authentic of periods represented. Scenes show: Colonial-overhang, New England house (17 cent.); Georgian town house (18th cent); Pennsylvania field-stone house (late 18th cent.); French provincial house from Vieux Carre district of New Orleans (mid 19th cent.); and Spanish hacienda from southwest (mid 19th cent.) All dishwasher safe, English ironstone ceramic.

SHOP BY MAIL..BY PHONE..OR IN PERSON

Even do your Out-of-Town shopping the Sears way with Sears SHIP-A-GIFT Service...

You can send almost anything in this catalog to anyone . . anywhere in the U.S. . . or almost anywhere in the world . . see page 400 for complete details.

YOU CAN ORDER ANY ONE OF FOUR WAYS

1. Catalog Sales Office or Sears Authorized Catalog Sales Merchant—It's easy to order through your nearest Sears Catalog selling unit. A copy of this Catalog is available in each office for reference.

2. Retail Store Catalog Sales Department—Each Sears Retail Store has a Catalog Sales Department where trained sales people will help you make a selection and write your order.

3. Shop By Phone—You'll be pleased at the ease and convenience of ordering from Sears Catalog by telephone. So call today—it's the easiest way to shop. Phone your Easy Payment and Sears Revolving Charge Account orders, too.

Arrange to have your order delivered directly to your home. Or, if you prefer, you can pick it up at the Catalog Selling Unit or Retail Store Catalog Sales Department nearest you.

4. Shop at Home by Mail—List all the items you want on a Sears order blank or any plain piece of paper. Print plainly your full name and mailing address. Be sure to include all catalog numbers and descriptions of wanted items.

See Sears Big Book or any Sears Catalog Selling Unit for shipping information (such as Express and estimated motor freight rates).

CREDIT TERMS

If you are adding on to a Revolving Charge Account, Easy Payment or Modernizing Credit Account, indicate on the order blank your account number and town in which the Sears Store carrying your account is located. On Sears Credit Terms orders, we ship prepaid and charge your account.

If you are opening a new account, have the head of household answer the questions on the back of the order blank and check type of account desired.

C.O.D. MAIL ORDERS— WE STRONGLY URGE YOU NOT TO ORDER C.O.D. . . SUCH ORDERS INVOLVE HIGH EXTRA CHARGES TO YOU

When ordering by mail, it is to your benefit to send a money order, check, or use Sears Credit Terms. See Sears Big Book for details on extra charges involved on parcel post and freight-express C.O.D. shipments.

We do not ship C.O.D. orders for live animals or birds, perishable goods or for merchandise cut, engraved, printed or made to order; for merchandise shipped direct from factory or shipped to foreign countries or to anyone other than the person sending order.

When Sears says "SAVE" you really save

Now, as for years, Sears shows price cuts or savings only on those items we previously listed or on those to be listed in future catalogs at regular prices. With these items, we always state the actual "was" price or "will be" price on which the savings is based. If the description for an item in this book does not include such a statement, that item is offered at our regular low price.

IMPORTANT ABOUT PRICES

You always get our lowest prices . . if the price of any item in this catalog is reduced in another regular Sears Catalog during the time this book is current, we will fill your order at the lower price regardless of which current Sears catalog you use. Prices in this catalog apply only to orders placed by mail, telephone, telegraph or placed in person at a Sears Catalog Sales Office, Authorized Catalog Sales Merchant, or at the Catalog Sales Department in a Retail Store, Retail Catalog and Appliance Store or in a Sears Affiliated Store. Except where stated otherwise on specific items, prices quoted in this catalog do not include charges for transporting goods from our distribution centers to a Sears selling unit for pick-up, or for delivery to your home.

HOW TO FIGURE PARCEL POST CHARGES

Packages weighing up to 70 pounds and measuring not more than 100 inches in length and girth can be sent by parcel post in all parcel post zones, except when mailed at a first class post office and addressed for city delivery to another first class post office. Our Catalog Plant is served by a first class post office. Your Postmaster or carrier can tell you if you are served by a first class post office.

Parcels weighing less than 10 lbs., and measuring over 84 in. but not exceeding 100 in. in length and girth combined, are chargeable with a minimum rate equal to that for a 10 lb. parcel for the zone to which addressed.

Catalog numbers followed by "L" (as 64-9182L) cannot be mailed from a first class post office to a first class post office for city delivery in any parcel post zone. (This does not apply to rural route addresses.)

Catalog numbers ending with "N", "N2", "NH", etc. are unmailable.

Parcel Post rates are subject to change without notice

Revolving Charge Account

This is the Credit Card that makes Your Shopping Easy

..and allows you to buy up to $200 for a minimum monthly payment of only $10

With a Sears Revolving Charge Account all you do is pick up a phone—call Sears and say "Charge It"! It's that simple..

No money down or minimum purchase required when you use your Sears Credit Card. If you wish; pay your charge each month within 25 days of billing date (with NO FINANCE CHARGE) or, if you prefer, spread your payments out over months; if you choose to do this, your monthly payments ($10.00 minimum) will go up or down, depending on your balance and a FINANCE CHARGE will be added each month.

We send you a statement of your account every month. Makes bookkeeping so much easier for you—a complete record of your purchases is always available.

You can open your account now—and order later. There is no need to send an order when you open your account . . . open it now—we will send you your Sears Credit Card. You can start using it whenever you wish.

It's easy to start your account—here's how. Simply fill in the application on page 370 and sign the agreement on the following page—depending upon your state of residence as outlined in the "NOTICE" on the following page—send both to Sears. Or you may open an account by telephone—just by calling the most convenient Sears unit. Tell our phone clerk you want to open a revolving Charge Account; she will take your application and your order at the same time, if you wish; or visit any Sears store—they will gladly answer any questions you may have and fill out your application for you.

Maintenance agreements and charges for service and installation of Sears merchandise may also be added to your account.

You never need to figure delivery charges—we prepay them. Sears own people will figure postage, freight or delivery charges on your order—send your package off to you prepaid and add the charges to your account.

You don't need to keep money on hand to pay C.O.D. charges. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

Picking up your order is easier. No delay or money to pay. Your Sears Credit Card shows you are a "charge customer."

Any Sears Store or office nationwide will accept your Sears Credit Card. Wherever you are in all these United States your credit is good—on vacation, on business trips, in any place there is a Sears unit. Just show your Sears Credit Card. Sears will be glad to take your "Charge" order wherever you are!

the comfort shirt

. . the PERMA•PREST® Dress Shirt that feels as good as it looks because it's cut to be comfortable

Our C-band® collar is contour cut. That means the collar band is curved. So it makes your collar stand up nice and high in back, but dip comfortably low in front.

The yoke is cut on a curve, too. And the sleeve ends are cut on a slant. That way, our sleeves attach to the shirt at an angle. So they follow the curve of your shoulder for an easy, natural fit.

The shirttails are extra long, too. Stay smoothly tucked in, won't bunch up around your waist.

(1 thru 26) The • Comfort • Shirt shown on these 2 pages is a Trim Regular tapered version with long point, medium spread Cape collar. Removable, flexible stays keep the collar neat. Placket front. Chest pocket. Long sleeves. Style (1 thru 4) has French cuffs; styles (5 thru 26) have double-button cuffs. No ironing needed—mach. wash, medium, tumble dry.

Kenmore Compactor

- Holds approximately as much as three 20-gallon trash cans
- Takes bottles, bones, cans, food waste—almost anything
